Icones
Mammalium,
cum
indice systematico.

Hafniae 1835.

Sumptibus Christiani Steen, bibliopolae et chartopratis hafniensis;
typis Bianco Luno & Schneider.

Quoad *Mammalia* ordines celeberrimum *Blumenbach*, quoad vero genera speciesque immortalem *Linnaeum* (editionem XIII^{am} ejus Systematis Naturae compara) sumus secuti. Species, parenthesi inclusae, in Systemate Linn. desiderantur; quare eas servavimus, quibus usus est auctor in textu, aeneas hujus operis tabulas illustraturo. Has etiam adjecimus, ubi differunt a Linneanis.

Animal Javanicum a Nieuhof in itineralio (Nieuhofs Zee- et Land-Reizen p. 293) descriptum ibidemque depictum, quod in hujus operis tabulam XXIII^{am} translalum est, fabulam valde sapit. Sinenses, auctore Nieuhof, illud *Suckoteiro* seu *Suckotyro* nuncupant. "Mea fert opinio," inquit *Illiger* in suo Prodromo Systematis Mammalium et Avium p. 100, "id Suem Babyrussam esse, narratione imperitorum in talem molem auctum et imaginem secundum illas solas confectam esse."
